

Design Your Own “Green Space”

Pretend the school is giving you an open space to use as a “Green Space.” You can put different items in that space depending on what you want to do. Use the 20 x 20 grid, and the table of items, to fill in the space with “green” objects that you think would help the school be more eco-friendly. Color and label the different sections to show your design (don’t forget to leave space to walk in your area).

Item	Length	Width
Solar Panels	8	4
Recycle Bins	1	1
Carrots	4	7
Celery	5	7
Cucumber	8	8
Lettuce	10	6
Peas	1	5
Tomatoes	10	12
1 Apple Tree	4	4
Blackberries	2	3
Strawberries	1	3
